Programs Offered

Undergraduate Courses

Bachelor of Business Administration

The BBA (Work-Linked Degree) at Guru Kashi University is crafted for students who want to kickstart their careers in business, management, and entrepreneurship while earning a degree. The program blends classroom learning with real-world work experience, allowing students to apply their knowledge in live business settings. Through this format, students gain a strong understanding of business operations, communication, finance, and marketing while working in industry-relevant roles.

Course Duration: 3 years

Eligibility: Passed 10 +2 from a recognized board

Fee Structure

Program	Duration	Yearly Fee
Bachelor of Business Administration	3 years	42100

Bachelor of Computer Applications

The BCA (Work-Linked Degree) at Guru Kashi University is designed for students who want to start a tech career while studying. This program combines core computer science education with real-world IT experience, allowing students to learn coding, networking, and software development while working in tech roles. Through industry exposure and project-based learning, students graduate with hands-on skills and 3 years of experience, giving them a head start in the digital economy.

Course Duration: 3 years

Eligibility: Passed 10 +2 from a recognized board

Fee Structure

Program	Duration	Yearly Fee
Bachelor of Computer Applications	3 years	42100

Postgraduate Courses

Master of Business Administration

The MBA (Work-Linked Degree) at Gur Kashi University is designed for ambitious graduates who want to gain real-world business experience while pursuing their master's. This program integrates academic learning with on-the-job training in corporate environments, helping students apply their knowledge in areas like marketing, finance, HR, and operations. With a focus on leadership, strategy, and decision-making, students graduate with a degree, 2 years of work experience, and the practical skills needed to excel in today's job market.

Course Duration: 2 years

Eligibility: Passed 10 +2 from a recognized board

Fee Structure

Program	Duration	Yearly Fee
Master of Business Administration	2 years	66,500

Master of Computer Applications

The MCA (Work-Linked Degree) at Gur Kashi University prepares students for advanced roles in software development, data science, cybersecurity, and IT infrastructure. Unlike traditional programs, this course combines classroom learning with real-time work experience in tech companies. Students apply concepts like programming, databases, AI, and cloud computing on the job, gaining both academic knowledge and 2 years of hands-on industry exposure. This work-integrated model builds a strong foundation for a thriving career in the tech industry.

Course Duration: 2 years

Eligibility: Passed Any Graduation with at least 45% marks in the aggregate.

Fee Structure

Program	Duration	Yearly Fee
Master of Computer Applications	2 years	61500

About The University

The Guru Kashi University has been founded by Balaji Education Trust, Talwandi Sabo which was established in 1997 and became the foundation stone for education in this region. The first college, Guru Gobind Singh Polytechnic was established in 1998 and later Graduate and Post graduate programmes were added. In 2001, Guru Gobind Singh College of Engineering & Technology was established, followed by Guru Gobind Singh College of Education in 2005. In 2006, GGS Institute of IT and Research and the GGS College of Nursing came into existence. In 2011, Guru Kashi University was established by the Punjab Act No. 37 of 2011. Since then, the university has been growing and catering the needs of local, national and global areas in the lap of natural beauty.
